CURRICULUM VITAE

Dr Ramachandran Thiruvengadam
M.B.,B.S., DCH, M.D. (Biochemistry), Ph.D. (Maternal and Child Health)
Associate Professor, Maternal and Child Health Programme, BRIC-Translational Health Science and Technology Institute (THSTI), Faridabad, Haryana, India

1. Contact and identifiers

Address	NCR Biotech Science Cluster, 3rd Milestone, Faridabad-Gurugram Expressway, Faridabad 121001, Haryana, India
E-mail	ramachandran@thsti.res.in
ORCID	0000-0002-9195-2730
Web of Science ID	AFK-3492-2022
Google Scholar	https://scholar.google.com/citations?user=2yFI5XoAAAAJ
Domain expertise	Maternal and child health; perinatal epidemiology; clinical trials; clinical prediction models, AI-enabled imaging tools and multi-omics for adverse pregnancy outcomes; clinical and translational immunology

2. Profile

Physician-scientist and translational researcher in maternal and child health. I develop and validate predictive and diagnostic tools and interventions that can be deployed at public-health scale to reduce adverse pregnancy outcomes such as preterm birth, fetal growth restriction and the great obstetrical syndromes, through robustly designed cohort studies, randomised trials and secondary analyses of pooled national data. I am an investigator in the Interdisciplinary Group for Advanced Research on Birth Outcomes - DBT India Initiative (GARBH-Ini), where I work with multi-omics and data-science teams to discover biomarkers and build AI-driven clinical decision tools, and I have translated this work into four Indian patent applications (three awarded). During 2020-2023 I coordinated the clinical research component of the DBT Consortium for COVID-19 Research, including the real-world effectiveness evaluation of COVID-19 vaccines that informed national immunisation policy. I currently lead, as Principal Investigator, two ICMR National Health Research Priority (NHRP) projects on hypothyroidism in pregnancy and gestational weight gain, and I am Co-Principal Investigator of the ICMR-funded GRASPP randomised controlled trial and the Gates Foundation-supported MOMI-India consortium.

3. Academic qualifications

Institution	Degree	Year
Translational Health Science and Technology Institute, Faridabad (affiliated to Jawaharlal Nehru University, New Delhi)	Ph.D. (Life Sciences - Maternal and Child Health)	2023
All India Institute of Medical Sciences (AIIMS), New Delhi	M.D. (Biochemistry)	2016
Institute of Child Health and Hospital for Children, Madras Medical College, The Tamil Nadu Dr MGR Medical University	Diploma in Child Health (DCH)	2009
Madurai Medical College, Madurai, The Tamil Nadu Dr MGR Medical University	M.B.,B.S.	2005

4. Specialised training and courses

Course	Place and date	Conducted by
EpiCap pedagogy workshop: analytic epidemiology for causal inference,	Bergen, Norway; 16-23 February 2024	University of Bergen

teaching for learning		
Fundamental concepts in medical statistics with applications to RCTs (co-facilitator)	Kampala, Uganda; 7-13 June 2023	University of Bergen; Makerere University
Advanced epidemiology and causal inference	Bergen, Norway; 25-29 April 2022	University of Bergen
Introduction to modern epidemiology and clinical research methodology	Bergen, Norway; 20-22 April 2022	University of Bergen
Short course series on environmental exposure assessment	PHFI, Gurugram; Oct and Dec 2018	ISEE, PHFI, CCDC
NIH-ICMR-THSTI course on principles and practice of clinical research	Hyderabad; 16-21 April 2018	NIH, USA and ICMR
Data Science specialisation (online)	June-September 2017	Johns Hopkins Bloomberg School of Public Health

5. Professional experience

Institution	Position	From	To
BRIC-Translational Health Science and Technology Institute (THSTI), Faridabad	Associate Professor, Maternal and Child Health Programme	30 June 2025	Till date
Pondicherry Institute of Medical Sciences, Puducherry	Assistant Professor, Department of Biochemistry	May 2022	June 2025
THSTI, Faridabad	Principal Scientist - I	November 2021	May 2022
THSTI, Faridabad	Senior Research Scientist	July 2021	November 2021
THSTI, Faridabad	Scientist D	January 2020	June 2021
THSTI, Faridabad	Scientist C	January 2019	January 2020
THSTI, Faridabad	Early Career Medical Research Awardee	July 2016	January 2019
All India Institute of Medical Sciences, New Delhi	Junior Resident (M.D. Biochemistry)	2013	2016
Private practice	Paediatric consultant	March 2009	May 2013

6. Research grants and sponsored projects

6.1 Ongoing

Project	Funding agency	Role	Duration / status	Amount
IPD analysis of hypothyroidism in pregnancy: prevalence, risk factors and maternal and fetal outcomes in India (ePMS NHRP-2026-0000226)	Indian Council of Medical Research (ICMR), National Health Research Priority	PI	20 August 2026 to 19 February 2028 (18 months)	INR 24,51,020 (Year 1 sanctioned)
Secondary data analysis of gestational weight gain and maternal-neonatal outcomes in Indian cohorts (ePMS NHRP-2026-0000219)	Indian Council of Medical Research (ICMR), National Health Research Priority	PI	1 June 2026 to 30 November 2027 (18 months)	INR 19,07,060 (Year 1 sanctioned)
Surveillance and Pregnancy/Perinatal Research Platform for India: pregnancy risk stratification data analysis, modelling and capacity building (Research Service Agreement, THSTI P609)	Christian Medical College (CMC) Vellore	PI	1 October 2025 to 31 March 2028	INR 1,14,88,500 (excl. GST)
Graded Risk-based Assessment for Screening and Prevention of Placental Disorders (GRASPP): randomised controlled trial of a two-step	Indian Council of Medical Research (ICMR)	Co-PI	11 November 2025 to 10 November 2029	INR 9,94,20,000 (994.20 lakh)

contingent screening strategy for the great obstetrical syndromes (EMTR/IM-DEL/2025/03-28)				
MOMI-India: Multi-Omics for Mothers and Infants, Genomics and Analysis Planning, Phase II (BIRAC/GCI/2023/MOMI-Phase II)	Bill & Melinda Gates Foundation, via Grand Challenges India-BIRAC	Co-PI	23 August 2023 to 22 August 2027	INR 10,65,90,000 (1065.90 lakh)
Improving maternal and neonatal outcomes using imaging data science (IIRPIG-2023-0001097; File No. EM/Dev/IG/0001097/2023/JJC; PI: Dr Nitya Wadhwa)	ICMR, Extramural Research Programme (Intermediate Grant)	Co-PI (clinical investigation)	20 March 2024; approved duration 4 years, annual extension after review	INR 2,06,22,808 (Year 1 sanctioned); INR 7,97,46,000 proposed for 4 years
Effects of extreme heat on maternal, placental and fetal physiology, lactation and newborn health in India (HiP-India)	Wellcome Trust, UK	Co-PI (clinical domain)	2024 to 2029 (dates to be confirmed)	GBP 2 million (consortium total)
AI for Ultrasound Programme (AI4USG): multicentric evaluation of Indian population-specific tools for antenatal gestational age estimation (MEGA study), with THSTI and IIT Madras	Grand Challenges India (BIRAC - Gates Foundation)	PI (technical domain), validation lead	2025 to 2026	Approx. INR 8 crore (incl. supplementary grant)

6.3 Completed

Project	Funding agency	Role	Duration	Amount
Inter-Institutional Programme for Maternal, Neonatal and Infant Sciences: a translational approach to studying preterm birth (GARBH-Ini Phase 2)	DBT, Government of India	Co-Investigator (clinical and epidemiology domain)	2020 to 2025	INR 48,85,32,000 (4885.32 lakh)
GARBH-Ini Phase 2, THSTI component	DBT, Government of India	Co-PI (clinical and epidemiology domain)	2020 to 2025	INR 29,35,56,000 (2935.56 lakh)
A bench-to-bedside model for clinical and translational science focused on fetal growth restriction and preterm birth (Glue Grant)	DBT, Government of India	Co-PI (clinical and epidemiology domain)	2018 to 2023	INR 6,81,90,000 (681.90 lakh)
Multi-Omics for Mothers and Infants (MOMI) Consortium, Phase I	Bill & Melinda Gates Foundation, via Grand Challenges India-BIRAC	Co-PI	2019 to 2023	INR 5,16,77,782 (516.78 lakh)
COVID-19 Bioresource at the NCR Biotech Science Cluster / DBT Consortium for COVID-19 Research	DBT, Government of India	Co-PI (cohort domain)	2020 to 2023	-
Preterm birth risk prediction in pregnant women using machine learning models	Grand Challenges India (BIRAC - Gates Foundation)	Co-Investigator	2020 to 2022	-

7. Patents (filed in India)

Title	Application no.	Status	Role
Garbh-Ini Ultrasound Image-based Gestational Age Estimation System (GAUGE)	202411027837	Filed 4 April 2024; awarded	Co-conceived the invention, designed and conducted the clinical study, and clinically

			evaluated the model.
A population-specific gestational dating system and a method thereof	202341061748	Filed 13 September 2023	Conceived the invention, designed the clinical study, clinically phenotyped the participants from whom the model was developed, and clinically evaluated the model.
Potently neutralising novel human monoclonal antibodies to SARS-CoV-2 (COVID-19)	202111038519	Filed 25 August 2021; awarded	Designed the clinical study and clinically phenotyped the participants from whom the monoclonal antibodies were generated.
Immunoassay for detection of Coronaviridae	202011039696	Filed 14 September 2020; awarded	Designed the clinical study, clinically phenotyped the participants from whom biospecimens were collected, and clinically evaluated the diagnostic assay.

8. Awards and honours

Award	Date
Associate Fellow, Indian National Science Academy (INSA), New Delhi	2026
Award for a PhD student for the Best Published Paper of 2021, THSTI Foundation Day (DBT)	15 July 2022
Best oral presentation (second prize), Workshop on Air Pollution and Health Effects Research in India, CAPHER-India	21-23 October 2021
Best PhD oral presentation (second prize), National Science Day, THSTI	28 February 2021
Dr M.K. Bhan Group Award for the most impactful collaboration, THSTI (as a member of the clinical team of the DBT Consortium for COVID-19 Research)	2020
Early Career Medical Research Award, THSTI, DBT, Government of India (maternal and child health)	2017
FIMSA award for best poster, 13th FIMSA Advanced Immunology Course, PGIMER Chandigarh	17-19 March 2016
Prof. L.M. Shrivastava Medal for best oral presentation, 4th CME of Clinical Biochemistry, Sir Ganga Ram Hospital, New Delhi	20 March 2015
Certificate of Excellence for best journal club presentation, Department of Biochemistry, AIIMS, New Delhi	2014 and 2015

9. Teaching and pedagogy

- Faculty, PhD coursework in epidemiology, clinical research, translational research and biostatistics, BRIC-THSTI (2019-2022 and 2025 onwards).
- Faculty, MSc Clinical Research programme (clinical trials specialisation), THSTI: Epidemiology module (2023 onwards).
- External examiner, PhD thesis evaluation, University of Bergen, Norway (2024).
- External examiner, PhD thesis evaluation, Department of Biochemistry, AIIMS, New Delhi (2026).
- Faculty and co-facilitator, EpiCap, a capacity-building programme for epidemiology teachers in LMICs (ICMR-NIE and University of Bergen) (2023 onwards).

10. Institution-building and leadership

- Clinical coordinator and co-organiser, Aryabhata Data Science and AI Program at THSTI (ADAPT), bringing together clinical researchers, data scientists, computational biologists and statisticians.

- Spearheaded the THSTI collaboration with the Robert Bosch Centre for Data Science and AI, IIT Madras: more than INR 10 crore in extramural funding across three projects since 2019, two manuscripts and a patented product (GAUGE).
- Facilitated the Multi-Omics for Mothers and Infants (MOMI) consortium (Gates Foundation via GCI-BIRAC); contributed to the Variable Harmonisation Working Group harmonising clinical data across six cohorts in India, Pakistan, Bangladesh, Zambia and Tanzania (about 25,000 pregnant women).
- Coordinated the clinical research component of the DBT Consortium for COVID-19 Research, including real-world effectiveness evaluation of Covishield and Covaxin against Delta and Omicron that informed the national immunisation programme.
- Lead, THSTI pregnancy risk stratification data-analysis and capacity-building services to CMC Vellore (2025-2028).
- Coordinator, day-to-day activities of THSTI AI and imaging research projects in the Maternal and Child Health Programme (ICMR imaging data science project and Grand Challenges India AI for Ultrasound Programme), 2026 onwards.

11. Memberships, editorial and expert roles

- Member, Scientific Advisory Committee, ICMR-National Institute of Nutrition, Hyderabad.
- Expert member, Project Selection Committee (Epidemiology), ICMR intramural funding, 2024 onwards.
- Academic Editor, PLOS Global Public Health, and Associate Editor, Frontiers in Pediatrics, 2023 onwards.
- Member, Technical Advisory Group, Obesity Individual Participant Data Meta-analysis, ICMR (Division of Reproductive, Child Health and Nutrition), 2026 onwards.
- Member, Mentorship Advisory Committee, PRERNA 3.0, Society for Applied Studies, New Delhi, 2026 onwards.
- Expert reviewer, ICMR-RCN Division intramural research proposals.

12. Workshops organised

- Data science-driven solutions to improve maternal and child health: improving accuracy of pregnancy dating using AI, IIT Madras, Chennai, 22 February 2023 (co-organiser).
- Stakeholder meeting on AI-enabled pregnancy dating models and ultrasound tools, THSTI, April 2023 (co-organiser).
- Annual workshops on Artificial Intelligence in Healthcare with the University of Oxford: 5-6 March 2020 (Delhi), 21-24 November 2021 (online), 12-14 June 2022 (Goa) (co-organiser).
- Faculty Development Programme on clinical research methodology, Sharda University, Greater Noida, 8 February 2020 (co-organiser).

13. Book chapters and technical documents

- Essential Diagnostics List 2019-20 for the World Health Organization, South-East Asia Region (co-author).

14. Bibliometric summary

Articles in PubMed (past 10 years)	63 (PubMed, as on 5 November 2026)
h-index	22 (Google Scholar, as on 6 November 2026)
Citations	3,956 (Google Scholar, as on 6 November 2026); i10-index 31
Patents	4 Indian patent applications (3 awarded, 1 filed)
Fellowships of academies	INSA Associate Fellow (2026)

15. Publications (66, peer-reviewed, reverse chronological, AMA style)

Papers with more than six authors list the first three authors followed by et al. The bracket gives the role of Dr Thiruvengadam.

1. Gleed AD, Gosain M, Thiruvengadam R, et al. Feasibility and usability of an obstetric ultrasound video colour overlay to assist placenta localisation to risk stratify high-risk pregnancies in rural and low- and middle-income country settings. *BMC Pregnancy Childbirth*. 2026;Epub 2026 Oct 19. doi:10.1186/s12884-026-10048-w *[Co-author] [JIF 3.1 (2025)]*

2. Chanian R, Thiruvengadam R, Desiraju BK. Ensuring safe and responsible use of artificial intelligence in medical imaging: pitfalls and practical solutions through the lens of obstetric ultrasound. *Indian J Radiol Imaging*. 2026;36(4):614-620. doi:10.1055/s-0046-1829015. PMID: 42921404 *[Second author]*

3. ICMR-SPIC Group. Prevalence and risk factors for stillbirths in India: secondary analysis of ICMR-Stillbirth Pooled India Cohort (ICMR-SPIC). *Lancet Reg Health Southeast Asia*. 2026;52:100841. doi:10.1016/j.lansea.2026.100841. PMID: 42948307 *[Group/consortium member] [JIF 6.4 (2025); Google Scholar citations: 1]*

4. Gopal P, Opondo C, Mukherjee D, et al; ICMR-SPIC Consortium. Risk of stillbirth among pregnant women with anaemia in India: secondary analysis of multiple cohorts from the ICMR-SPIC consortium. *Lancet Reg Health Southeast Asia*. 2026;52:100825. doi:10.1016/j.lansea.2026.100825. PMID: 42572652 *[Co-author] [JIF 6.4 (2025); Google Scholar citations: 1]*

5. Gadekar VP, Sadhu A, Thakur SB, et al. Phenotypic characteristics associated with preterm births in the Indian population. *BMC Pregnancy Childbirth*. 2026;26(1):1254. doi:10.1186/s12884-026-09836-1. PMID: 42972316 *[Co-author] [JIF 3.1 (2025)]*

6. Iqbal N, Murugan M, Subramanyam S, et al. Artificial intelligence-augmented standardized patient models for AETCOM (Attitude, Ethics, and Communication) competency evaluation: a pilot study. *Cureus*. 2026;18(7):e112683. doi:10.7759/cureus.112683. PMID: 42602116 *[Last author]*

7. Sarkar M, Maddheshiya A, Tailor P, et al. Longitudinal shifts in oral microbiome composition and metabolic pathways associated with preterm birth. *mSystems*. 2026;11(8):e0018426. doi:10.1128/msystems.00184-26. PMID: 42429677 *[Co-author] [JIF 5.2 (2025)]*

8. Mary Kurian C, Kumar K, Thomas D, et al; HiP-India Group. To gain insights into heat adaptations among women during the antenatal period in India - the Heat in Pregnancy Project (HiP-I) India - qualitative study protocol. *Wellcome Open Res*. 2026;11:93. doi:10.12688/wellcomeopenres.25507.2. PMID: 42064355 *[Co-author]*

9. Tang X, Ahmed S, Ahmed FB, et al; MOMI Consortium. Multi-Omics for Mothers and Infants (MOMI) Consortium: a global initiative to study adverse pregnancy outcomes. *J Glob Health*. 2026;16:05002. doi:10.7189/jogh.16.05002.
